SUMMARY

Recent ECE graduate with a strong academic foundation and a passion for Web Development. Eager to contribute to a dynamic team and gain practical experience as Full Stack Developer. Committed to continuous learning and dedicated to achieving excellence in development.

SKILLS

Front-End: HTML,CSS,Bootstrap,Tailwind,React.js
Back-End: Node.js,Express.js,MongoDB,Mongoose,JWT,zod
Language: JavaScript,TypeScript
Others: GIT,Github,Docker

PROJECTS

MERN	Course Selling Website Designed and developed a MERN-based course selling website with secure admin and user panels. Implemented JWT authentication for user access control, offering a user-friendly and efficient platform for course management and learning experiences..
React.js	Travel Advisor Developed a React-based travel advisor website integrating Google Maps API to display nearby hotels, restaurants, and tourist attractions. Implemented a user-friendly interface for seamless travel planning, enhancing the visitor experience and optimizing location-based recommendations.
React	Food Order Website Created a React-based food ordering app as a personal project to learn React. Developed an intuitive user interface for selecting and ordering food items, gaining hands-on experience in front-end web development.
React, Firebase	Messenger Constructed a React-based messenger web application for personal learning purposes, integrating Firebase Realtime Database. Developed the ability to send and receive messages in real-time, gaining valuable experience in front-end web development and real-time database integration.

EDUCATION
